

CUTLER'S COMMON SENSE GUIDE

- * Always maintain control, and be able to stop or avoid other people or objects.
- * People ahead of you have the right of way. It is your responsibility to avoid them.
- * Please keep dogs under control.
- * Clean up after your pet.
- * Stop in areas where you are visible to others, do not obstruct the trail.
- * Take time to read and understand signs and posted warnings.
- * Fat bikes yield to other users. Leave room for others to pass (no side-by-side riding).

As a user of National Forest System lands, you have significant responsibility for your personal safety while using these trails. The nature of winter sports create constantly changing situations involving risks and hazards to participants.

Snow trails in mountainous terrain, whether groomed or not, present the potential for innumerable hazards. Be alert and prepared for rapidly changing weather conditions, visibility, and snow surface conditions. These may affect and alter the level of risk or hazard to the recreationist.

FACTS AND INFO

The Cutler Ski Trails have approximately 4 miles of packed trails that average from 8100' to 8600' in elevation. The system was developed as an optional packed and marked system for people wanting to bring their dogs along. The Sibley Lake Ski Trails do not allow dogs along the groomed trails to protect the groomed surface. So if you want to bring along Fido, Cutler offers a nice option. The Black Mountain Nordic Club packs the Cutler trails. Club members annually contribute many days, equipment and money for maintenance and improvements to the trail system.

A TIDBIT OF HISTORY

This area has been logged in the past. Nearly all of the roads where the trails now follow were constructed for timber harvesting purposes in the 1960s and 1970s.

Cutler Ski Trails are well marked with blue diamonds on the trees and directional maps are posted at the trail intersections.
